

# HT-4021 Automatic Self-Adjusting Insulated Cable Stripper

## SPECIFICATION

- \* **Item No** HT-4021
- \* **Length** 7" (178mm)
- \* **Weight** 147g
- \* **Material** Nylon
- \* **Feature**

1. Features a self-adjusting and automatic grasp with the optimal tension functions.
2. Works on the single or multi-stranded cross-section 0.2-6.0mm<sup>2</sup> (24-10 AWG) cables.
3. Perfect for stripping insulated thick or thin wall without damaging to inner conductor.
4. Adjustable sliding stop helps to set a specific stripping length precisely.
5. Integrated lever-action cutter makes a clean cut for maximum 4.0mm<sup>2</sup> cables.
6. Front-loaded stripping allows better access to hard-to-reach spots.
7. Push-button lock mechanism for easy storage and safety in closed position.
8. Ergonomic grips reduce hand fatigue with comfort during prolonged use.
